Thanks, Corbin,

I can forward on to Douglas Minter and Colleen Rathbone, unless Gail, you want to do that.

Hi Claudia,

In case you haven't already seen this, I thought you might be interested in the recent report from

ECOS (see link below) which highlights some best practices from states who are considering EJ in their permitting activities. Please share it with any of your permitting counterparts in other programs who you think may be interested.

I've copied Jean Belille on this note as she has taken on the role of EJ in permitting point of contact for the EJ Team. Please keep both of us in the loop if there are any developments as a result of your work as the Region's representative on the national EJ in permitting work group. We will do likewise as we become aware of developments through our EJ channels. Also, we look forward to seeing the internal SOPs that you mentioned when we met last week.
